

5th February 2010 Newsletter

Hi All,

Well there sure is a lot of motorsport on at present and it is hard to keep up with everything going on. Hampton Downs is changing every day with more infrastructure and spectator facilities going in and large variations of motorsport activity on the track. This weekend there is ***The New Zealand Motor Cup featuring Toyota Racing International, NZV8 Utes, Formula First, Porsche Club, Hauraki Muscle Cars and Super Mini Challenge.*** The racing starts today so take advantage of the weather and make a weekend of it.

Top Gear Live is just a few weeks away and if you missed the show last year don't make the same mistake again and get yourselves along to a great show. We have 14 Targa cars competing at the super special stage, so when you are there make sure you visit them.

Targa Bambina is only 5 weeks away and all the programme information has gone to NZ Classic Car magazine, getting ready for the March 2010 issue. Drivers Information Packs are due out next week and livery will also be available then, so call Mandy at the office and let her know what you need. Dennis and I are off plotting for the ***Dunlop Targa*** next week, where are the weeks going!

Targa Rotorua is plotted, 335km of closed roads, now that is value for money! We are taking entries so get in early and take advantage of the special pricing. Targa Rotorua is a wonderful event and if you have not done one yet, just ask someone who has, it is a great weekend away.

Volunteers are still required for each event, so please keep spreading the word and contact the office if you can help out or email Mandy on info@targa.co.nz or Gina on timing@targa.co.nz . They are ready and waiting!

Thats all for now.

Peter and the Targa Team.
