

17th September 2010 Newsletter

Hello Everyone,

Dunlop Targa

Well you now only have two weeks to enter and pay before the GST rise, so save yourselves some money and get your entry into Mandy at the office or reply to this email, now. The competitors information for the program has been sent to NZ Classic Car Magazine and is getting collated as we speak, however Allan Walton has given us the opportunity to put the late comers in provided we have the information to him by next Wednesday, so if you want to get exposure for you and your sponsors then make sure you have all the information to Mandy, how many times do we need to remind you.

Richard Fraser from Dunlop can still supply tyres in time so get in touch with him via email richard_fraser@goodyear.com to sort out delivery. James Holder from MONIT is the go to man for the best trip meters on the market and full details are available on their website www.monitrally.com. If you need to up grade or are building a car then this is the way to go, they are very easy to calibrate and extremely easy to use and are the preferred unit for Targa NZ.

The livery is just being finalized an a request form will be sent to each entry on Monday.

Have a great weekend.

Peter and the Targa Team.
