

28th May 2010

Hello Everyone,

Targa Rotorua

Well winter is nearly here, it has been trying harder in some parts of New Zealand and Targa Rotorua is now only a week away.

Keith is out on the roads around the Rotorua District dropping off all the signs and safety tape to the marshal groups along with those last minute instructions.

Mandy has been inundated with last minute breakfast, lunch and dinner function orders and time is running out, so if you have not yet ordered them please get onto it NOW.

Ford Capri Club NZ

Once again the Capri Club will be joining us for the afternoon on Saturday and staying on for the Show n Shine later that night. They should add to the atmosphere around Tutanekai Street as we are entertained by the band and enjoyed by everyone else who are in town for the Jazz and Blues Festival. Please make them welcome and try twisting their arms to join us for the full Targa later in the year.

Seeding List

This is up on the website www.targa.co.nz for your consideration, please check it out under "Competitors Info" and get back to me with your car number and the seeding order you would like to be if you are not happy with where you have been placed. Please email peter@targa.co.nz with just the relevant details. We will be trying to run the entire field at one minute intervals, so the pressure is not so great if you are slightly out of the optimum positioning.

Recovery Vehicle

We have introduced a tow truck over the last few events as a FREE service for anyone caught in a little bit of trouble during a stage and it has been very well received. During this event we have enlisted the aid of a Flat Deck Truck, thanks to David Taylor from Motorsport Services, instead of the tow truck. Same rules apply, this is to recover you from a SLIGHT off and it will not have time to retrieve you from the never never as it is required to be at the next stage shortly after 999 and SWEEP have cleared the stage.

It will however be available to recover you from the never never and transport you AT YOUR COST after the last stage of each day.

Honda

Thanks goes again to Bob Boniface and his team at Blue Wing Honda. This year they are putting up two Honda 425 B Line Trimmers as prizes. These are the bees knees, with bulls horn handles and also have a rotary blade, they retail at over \$900. We are not sure what competition to put them towards yet but we will let you know when we have.

Dunlop Targa

As you will know we have extended the discount entry cut off date until after Targa Rotorua, this is to give you the opportunity to get through Rotorua first before committing to the main event, so take advantage and make sure you get your entry in before the **11th June 2010**. Dunlop continue to support Targa NZ and Richard and his team will be available all weekend at Rotorua so take advantage of their knowledge and don't be shy to ask them for help.

Well that's enough for now.
See you all next weekend.
Peter and the Targa Team.
