

28th May 2009 Newsletter

Hi All,

Targa Rotorua

Well, another couple of weeks have slipped by and we are only two weeks away from Targa Rotorua. The checking run has been completed, the poster has been finalised and we are still receiving entries on a dally basis.

The new TVD GPRS units have just arrived and we have started sending aerials out to have fitted to your car, so if you get one and need help on fitting please call the office. These units are required for all category 4 and 9, so if you have not received one yet please call the office. Please go on-line and check your details are correct. We have changed the website to a new server to increase the speed of access but you will need to reset your password, just call Mandy at the office and she will be able to help.

We are ready for early documentation at the office during the week of the 2nd June with a late night on Wednesday 3rd till 7.00pm. We are introducing wristbands as a trial for both driver and co-driver for this event. If this is welcomed then they will be barcoded in future to aid with the speed of signing in at drivers briefing. The wristbands will be handed out at Rotorua.

CureKids will be at Rotorua and stickers will be available for you to contribute. Unlike other years this is not compulsory but we believe in the cause and strongly urge to support them.

The seeding order will be up on the website by next week so have a look at it and if you think there should be changes then email the car number the current seeding position and where you wish to be, we don't need a story just the numbers.

BMW Lease Vehicles

We debuted two of the BMW E36 M-spec Coupes at the 6 hour endurance event held at the Pukekohe Park Race Track the weekend before last and both finished the event acquitted themselves well. We have three leased for the 4 hour endurance in Taupo on the 6th June. We have received a lot of interest in them and are currently negotiating leases for Targa Rotorua, so if you are interested then email me on peter@targa.co.nz or call on 0274 525643.

15th Anniversary Dunlop Targa 2009

We have been so busy with Targa Rotorua that the Dunlop Targa Event has been rather low key, however that is about to change. This is the fifteenth anniversary of Targa New Zealand and we need to celebrate it appropriately, so it is time for some of those past competitors to

bring the old girls out and put on a show, we are considering a special competition just for you. If you are interested please email me, on the above email address, with the details of your vehicle or call me at the office. This is aimed at historic cars that have competed in previous Targa events that no longer want to run at competition speeds.

Monit

Targa has been involved with the development of the MONIT rally computers and highly recommend them if you are looking for an easy, reliable and compact trip meter. Check out the website www.monitrally.com or contact James Holder on info@monitrally.com or 027 3594814.

HANS

We are in the process of allocating the HANS devices so if you would like to take advantage then please contact the office. Check out the website for the two options available.

Regards

Peter and the Targa Team.
