Presentation

Your car must be presented for competition in immaculate condition. Cars not meeting the standards we expect will not be able to start. For instance scruffy paintwork (chipped, dirty, dull or damaged), scruffy wheels and interiors likewise won't be accepted. Sorry gravel chaps - you will have some work to do! Rally type mud-flaps must be removed, however the smaller original mudflaps are acceptable. Cars with flip-up type headlights should purchase **Narva Compac 80** driving lights from Repco or Appco to save the drag, as all headlights must be on whilst in a closed stage. If you are in doubt over car presentation please contact us.

Modifications to Your Car

Please be honest when listing them. If you have changed specifications on your car since the Application to Compete was sent in, please inform the office by email. It is important to have your car at the correct weight.

Prizegiving

It is a condition of entry that all competitors attend the final Prizegiving on Sunday morning, 9am at the Wellington Convention centre.

Merchandise

It is expressly prohibited to use the Targa New Zealand Logo without our written permission. You may purchase official merchandise pre event through the Targa office. On event, merchandise will be available at Documentation and Prizegiving.

Entry Information & Contact Details

Please take time to log on to your entry & check all details are current & correct
It is very important to us that we have Mobile contact numbers for all competitors & service crew.

These numbers are made available to emergency services as required

Remember to check our Website for updates: www.targa.co.nz

Driver / Co-Driver Media Profiles

Please send stories about yourselves and your cars' histories by email to media@targa.co.nz or peter@targa.co.nz Don't be bashful - these will be used.

Trailer Parks

Trailers/large service vehicle trucks cannot be accommodated through all areas of the event therefore some forward thinking on your part will be needed as you may need to bring tools, jacks etc to the car, not the car to the service vehicle. **Only the Official KEA service trailers** can be at the Service stop areas, no others.

Insurance

Your vehicles should have a minimum of third party insurance whilst touring. Please ensure your existing insurance will cover you should a mishap happen whilst you are competing. **Proof of this must be shown at Documentation**

Car Wash

After most days competition there is a compulsory \$5.00 fundraising car wash. Meguiars sponsor the car wash material.

Trip Meters

Due to the route book highlighting cautions, warnings for hazards i.e. sharp corners, loose metal, crest or big drops with single! through to 3 cautions !!!, it is essential you have a Trip meter to accurately locate each hazard. This is especially important for cautions, which may be added by the safety car at the last moment. Have a look at www.monitrally.com

Trip Meter / ODO setting: LTSA have a 5km ODO check on the Southern Motorway between Drury and Bombay, heading south.

Whangamomona- Please note

Service crews will need to be in Whangamomona prior to road closure as there will not be a window for service crews to transit the stage to Whangamomona during the turn around period. as this has caused delays in previous years. It is highly recommended that arrangements to share service crew are made or the use of a second service crew.
