

Wow, look at this, the first of five new VTNZ Safety cars, that's right we are proud to announce a new relationship with VTNZ by way of naming rights sponsorship of the five safety vehicles that lead the event. Unlike any other motorsport event where the safety vehicles are only deployed in case of emergency, Targa safety vehicles will ensure the entire route is fully secure in front of the field. Targa and VTNZ have seen the mutual benefit of this association, as it allows the opportunity to expose the brands to rural New Zealanders as the event winds its way through the North Island.

This photo is of the "0 car", which is one minute in front of the first competition vehicle so watch out for it as it travels throughout Targa! The other four are evenly spread ahead of this car and we are sure they will impress too.
